

Workplace information literacy: Co-designed information experience-centered systems and practices

Mary M. Somerville & Robin Imhof
University of the Pacific, USA

Christine S. Bruce & Elham Sayyad Abdi
Queensland University of Technology, Australia

European Conference on Information Literacy (ECIL 2017)

Presentation Purpose

Tell the story of local application of information literacy theory and systems design methodology to foster inquiry based workplace culture and professional practices

ORGANIZATIONAL CONTEXT

ANTECEDENT THEORIES AND METHODS

Making sense of ‘messy’ situations,
through systems design processes
and tools

(Checkland, Soft Systems Methodology)

Using information and technology
to learn, to advance understanding
within context

(Bruce, Informed Learning)

Designing organizational systems
and associated practices, to foster
information exchange and
knowledge creation

(Somerville, Informed Systems)

CONTEMPORARY WORKPLACE CAPABILITIES

- ICT technologies evaluation and proficiency
- Information sources identification and evaluation
- Information exchange and knowledge generation
- Knowledge curation and management capabilities
- Professional practices and workplace learning

(Bruce, Informed Learning)

what
did we do?

1st thing? Get help from an expert!

1st day: “What is your best experience of using information to learn at work?”

- 19 participant stories shared through brief spoken summaries
- Participants then gathered in small groups for further discussion and reflection
- Written versions were collected at the end of the session for additional analysis

2nd day: Initial analysis of the stories

- Questions that helped guide us:
 - a. What is valued?
 - b. How does informed learning happen
 - c. Where does it happen?

3rd day: What we learned from the stories

- Internet important
- Dominant mode of workplace learning was self-learning
- The importance of technology to aid in our learning

A sunset over the ocean with the text "SEVEN ELEMENTS OF INFORMED LEARNING" overlaid. The sky transitions from a deep blue at the top to a bright orange and yellow near the horizon, where the sun is setting. The ocean is visible at the bottom, reflecting the colors of the sky.

SEVEN ELEMENTS OF
INFORMED LEARNING

Informed Learning Story Coding Categories

1. Information and communication technologies
2. Information sources
3. Information and knowledge generation processes
4. Information curation and knowledge management
5. Knowledge construction and worldview transformation
6. Collegial sharing and knowledge extension
7. Professional wisdom and workplace learning

(adapted from Bruce, Hughes, & Somerville, 2012)

Examples in stories of using category 1: Information and Communication Technologies (paraphrased)

- “Building working relationships with employees from other departments as well as within the library”
- “For communicating with students, I like them to text me. They can text about schedules, questions when they are in the stacks, want confirmation about something, etc.”

Examples in stories of using category 2: Sources

- “I didn’t know if I could use Adobe or Photoshop so I looked for an answer on Google”
- “I YouTube it”
- “Lynda.com is useful”

Example in stories of using category 3: Processes

- “I had to rely on historical information from paper files and the early stages of electronic filings in the shared (local) drive to piece together information to be able to understand current information”

Example in stories of using category 4: Information Curation and Knowledge Management

“ An electronic day log was created to communicate information (such as the day’s events, changes to procedures, issues reported) amongst employees working at different times of the day and at different locations.”

Example in stories of using category 5: Knowledge Construction

- “With the implementation of (the new ILS) the University hosted a workshop, made available a learning guide, and a test version of the program for independent evaluation ... Afterward we were emailed a copy of the guide to use the more extensive help functionality in the system ... I was grateful to have the chance to apply myself to solo practice at my own speed.”

Example in stories of using category 6: Collegial Sharing and Knowledge Extension

- “My best learning experiences have come from face-to-face interactions and collaboration. I have entered into meetings not knowing what the subject is about, then emerged fully informed. Meetings have been the key to getting things done and clarifying sticking points.”

Example in stories of using category 7:
Professional Wisdom

What did the coding reveal?

- Mostly scored in the 1-4 range
- Mostly recounted individual, rather than collective learning
- Mostly focused on tools of information (technology, source, processes, control)
- Categories 6-7 (information sharing and knowledge creation) were largely absent

Libguides blog for easy information sharing

The screenshot displays the Libguides blog interface. The browser address bar shows the URL <https://pearl.libapps.com/libguides/blog.php>. The page features a navigation menu with options like Home, Content, Tools, Discussions, Statistics, and Help. The main content area is titled "Library News" and includes a "Blog Management" section with a "Recent Posts" list. The featured post is titled "Collection signage is now being posted!" and includes a photograph of a library shelf with a red and yellow sign. The post text discusses the implementation of collection signage to help with finding books. A "Subscribe" form is also visible on the right side of the page.

Collection signage is now being posted!

By Edith Goto on June 30th, 2017 | Comments

In effort to help make finding books easier, we have now started posting signage at the end of each range indicating call numbers and collection types. Each collection type will now have its own assigned color. Here is a visual post:

Many thanks to Thy for creating such vibrant signage for our collections downstairs!

Last step in shifting and interfilling project

By Brenda Cantel on June 2nd, 2017 | Comments

Work will begin on Monday morning to remove 1st floor and 2nd floor shelving. Signage will be placed to direct students to new quiet areas that are away from where the work is being completed.

List of events:

- 1.) Recycle bin has been delivered by the library loading dock for the metal recycling
- 2.) Support Services/Structures will begin on the First Floor Sun-Ram on Monday morning. Their work will last 3 hours to limit disturbance.

how

did we do it?

RESEARCH TO PRACTICE

“Being aware of the kinds of information we are using, how we are using information and how different kinds of information come together to inform and transform our work.”

(Bruce, Hughes, & Somerville, 2012, 8-9)

INFORMATION
LITERACY

Information Experience Design for Workplace Information Literacy

Wireless headphones so everyone can hear the screen but NOT disturb the session

Digital wall? Big screen?

Movable wall panels (write to change) no tape but allow right and wrap Making less

* Presentation: Learning how to learn: Skills for self-directed

This session would provide basic concepts to learn and habits + skills cultivated to improve learning (practice) Academic performance

Movable Furniture

- ① Concepts presentation
- ② Small groups expand ideas
- ③ ~~group~~ group practice
- ④ All-group discussion maximize

Sections CAN be moved

TIGER TAIL (COUCH) Very comfy with extra cushions
